

Judge Stubbs Scores Manitoba Government

PEACE RIVER BOYS GO TO WINTER FAIR

Everett Sheehan, Charles Cranston to Represent Junior Swine Clubs

Everett Sheehan and Charles Cranston, both of whom are 17 years old and who reside in the Peace River district, will represent the junior swine clubs of this province in the Dominion-wide competitions for those organizations which will be held at the Royal Winter Fair, Toronto next week.

The two lads from the northern end of the province won their right to travel east on Friday when they captured the provincial championship in swine club work and swine judging in contests held at the University of Alberta farm.

In all, 11 teams participated in the contest.

The winning team was coached by W. J. Thompson, district agriculturist for the provincial government at Grande Prairie.

Competitions were held under the

'Safe and Sane' Hallowe'en Is Appeal in City

"Exercise discretion! Let make it a safe and sane Hallowe'en." That's the appeal being made to young men in Edmonton by the Junior Chamber of Commerce members of which are participating in a campaign to prevent lawless and foolish deeds during the 1932 Hallowe'en celebration.

"We want to bring home to all young men and women of the city that Hallowe'en is a time for fun and games, but it is not to be a time for lawlessness. It is not to be a time for causing damage and not only causing damage but in some cases leads to personal injury. Last year's campaign was productive of good results, and we are anxious to make this year a record year. That's why we are making for a 'Safe and Sane Hallowe'en' is the tenor of their plea.

Director of the department of agriculture with G. S. Black, superintendent of farm clubs, in charge.

Second prize in the event was won by the Toffel team of Joseph Kallal and Harold Schultz, with 500 marks.

Third place was won by the Willington team of Steve Sheehan and George Hill, with 377 marks. Other competitors scored as follows: Albert and Kenneth, 370; Edward, 367; Albert and Stewart, 366; Alice Taylor, 365; Charlotte Macdonald, 363; John and Alice, 362; John and Alice, 361; Russell and Walter, 360; and Andy, 359. The winners of the prize were: John and Alice, 361; Russell and Walter, 360; and Andy, 359. The winners of the prize were: John and Alice, 361; Russell and Walter, 360; and Andy, 359.

On Sunday evening at the Strathcona Hotel, the regimental band of the 49th Battalion will make its first appearance of the current season under the baton of Frank G. Aldridge, in playing a concert for the benefit of the Hallowe'en "Not Forgotten Fund." The object of the concert is a worthy one—provide Christmas comforts for the former soldiers still confined to the Military wing of the University hospital.

With the assistance of J. Norman Eagon and his concert band, the Hallowe'en "Not Forgotten Fund" will be held at the Strathcona Hotel, 10:30 p.m. The concert will be held at the Strathcona Hotel, 10:30 p.m.

The 40th band has a splendid tradition to maintain. Ever since the formation of the battalion, in January of 1915 the band has been one of the pride of the organization. In the spirit of the band, the band was always kept at a high pitch by their playing under the direction of the late beloved J. B. Day.

Frank Aldridge, who served in France with the R.C.B. band, has carried on the fine work started by Mr. Day.

The program will include the ever popular and most popular war time march, "Colonel Blimp's Band," "Bullets and Bombs," "A Gaily Glee," "Buddy's March," "Noon and Night" overture and other items, including a troupe of songs by Fred, under "Pipe Major Laidley" and also take part in the program.

David W. Vaughan, chairman and cheerleader of Holy Trinity church, will be the first to sing "The Star-Spangled Banner" in its entirety, some of the hymns in this in his mind, he extends to all devotees of the music.

Some Pets, Eh?

Two-year-old Dorothy Jean Hamilton, sitting on a bed-roll with two pets, in Chicago, is perfectly happy despite the fact that she is moving about a great deal lately. Dorothy is one of the children of Benjamin Hamilton, a Ben Hur mariner, now on route from Johnston, Pa., to his home in Los Angeles with his family.

JURIST AVERS INSULT GIVEN HIS POSITION

Bourbons Have Some Lessons to Learn Remarks Accused

WINNIPEG, Oct. 28.—The second week of next year was proposed by Judge L. St. J. Stubbs, Manitoba county court judge, as a suitable time to begin the inquiry ordered into the conduct by the department of justice in Ottawa.

This proposal was made in a letter addressed to Col. Arthur St. J. Stubbs, K.C., counsel, to Mr. Justice Frank Ford of the Alberta Supreme court, who will hold the commission to inquire into the conduct of the department of justice in Ottawa.

After explaining that he is unable to confirm that date the opening of the inquiry because of his need for the holiday and time to prepare his brief, and suggesting the second week in January, 1933, Judge Stubbs said he would be glad to have the inquiry held at that time.

"The very institution of the inquiry is an insult to any judge," the Bourbon governments in Manitoba, and the Dominion have some lessons to learn—lessons as to the right of free judicial comment and the independence of the judiciary, in the constitutional rights and duties of judges, and as to how much practical equality there is before the law.

"That lesson will require considerable time to prepare and arrange the governments may be incapable of learning, but in the process of attempting to teach them, the public will get much information and enlightenment, which will be of value to the public."

"As there is much public interest manifested as to when the commission will sit, I am making this letter public so that there may be no suggestion that the real cause of the delay in holding the inquiry is the law."

Mr. W. B. W. J. Stubbs, K.C., Oct. 28.—The second week of next year was proposed by Judge L. St. J. Stubbs, Manitoba county court judge, as a suitable time to begin the inquiry ordered into the conduct by the department of justice in Ottawa.

After explaining that he is unable to confirm that date the opening of the inquiry because of his need for the holiday and time to prepare his brief, and suggesting the second week in January, 1933, Judge Stubbs said he would be glad to have the inquiry held at that time.

PRESBYTERIAN CHURCH HOLDS MEMBERSHIP

Continuing Church Claims Substantial Majority Over Unionists

It has been generally supposed and claimed that a majority of the Presbyterian church had gone into the Union and joined the United church, but the continuing Presbyterian church constitutes a substantial minority over those who became part of the United church as the figures will show.

In 1921 there were 1,100,408 Methodists in Canada and 10,770 Congregationalists, making a total of 1,111,178. The returns for 1931 show the total number of United church members to be 2,016,773 and the difference between 1921 and 1931 shows that there were 906,295 more members in the United church since 1921. In the previous decade there had been an increase of approximately 8 per cent, and assuming that to be a fair percentage to take for the period since 1921, the number of Methodists and Congregationalists in the United church in 1931 would be 1,232,944 and the number of continuing Presbyterians would be 723,829. This would seem to be the most accurate way in which to arrive at the actual situation, and the result is that there are 1,266,707 more members and adherents of the original Presbyterian body who are not in the continuing Presbyterian church than in the United church, and that the continuing church contains approximately 62 per cent, and the United church 38 per cent, of present or former Presbyterians.

Famous Lincoln Cathedral Restored to Old Grandeur

Americans joined with Britons in financing restoration of the famous old Lincoln Cathedral, Lincoln, England, shows here while the scaffolding was in place.

LONDON, England, Oct. 28.—Crowning the hill on the slopes of which the town of Lincoln, 20 miles northwest of London, is the outstanding architectural treasure of the United Kingdom—Lincoln cathedral.

"When, some five years ago, the famous old edifice threatened to crumble under the ravages of time, Americans joined with Britons to fund to finance an extensive restoration, now nearing completion.

On a clear day the cathedral's towers, rising majestically above the town, are visible for 30 miles. There are three of them, rising 160 feet, 151 feet higher. But the spire of the central tower was blown down in 1547 and the others were restored in 1841.

Of the original early-Norman church, erected about 1075-80, there remain the central portion of the west front and part of the first bay of the nave. The three west doorways, lower stages of the west towers and some of the piers are ascribed to the late Norman reconstruction of the 12th century.

After an earthquake shattered the Norman cathedral in 1180, years of restoration began at once and many additions were made to the structure.

From a combination of Norman and English architecture, the cathedral is a fine example of the Gothic style of pure Gothic has been evolved in the 12th century.

Like many other great English cathedrals, Lincoln suffered from

vandalism. Henry VIII plundered its treasures, Bishop Housheer over-ate, and so first the great tower and recast in 1824, to call the faithful to worship as it has for generations.

have erased its imposing grandeur.

In the central tower there still hangs the great five-lb bell, "Tom of Lincoln," originally cast in 1610 and recast in 1824, to call the faithful to worship as it has for generations.

HBC KNITTING CONTEST PRIZE WINNERS:

Class 1—

1st Prize, \$10.—Mrs. C. S. Fisher, 11024 - 87th Ave.
2nd Prize, \$5.—Mrs. A. C. Hicks, 10119 - 121st St.
3rd Prize, \$3.—Mrs. A. E. Flood, 10130 - 123rd St.

(Honorable Mention)
Mrs. Alice O'Brien, 9717 - 106th St.
Mrs. M. A. Logan, 15 Villa Laurier.
Mrs. F. Wright, 10119 - 121st St.
Miss Muriel Fawcett, 11006 - 125th St.

Class 2—

1st Prize, \$10.—Mrs. O. Thomson, 10709 - 93rd St.
2nd Prize, \$5.—Mrs. W. Blake, 11915 - 92nd St.

Class 3—

1st Prize, \$10.—Mrs. A. Gould, 11004 - 107th Ave.
2nd Prize, \$5.—Mrs. Bert Holmes, 9819 - 104th St.
3rd Prize, \$3.—Mrs. H. Beckel, 305 Alberta Bldg.

(Honorable Mention)
Mrs. Ada Long, 9309 - 118th Ave.
Mrs. G. Walters, 12102 - 91st St.
Mrs. G. H. Kilgour, 9641 - 109th Ave.

All entries will be shown in our large corner window, Monday and Tuesday of next week. We take this opportunity of complimenting all contestants on the high quality of their exhibits. It was only after careful examination that decisions could be made.

Contestants may have their exhibits by calling at the Advertising Office on Second Floor, Friday or later. All country entries will be mailed on this date.

PROBLEMS OF THE MODERN HOME

"BRASS TACKS" ON THE SUNDAY SCHOOL LESSON

(The International Uniform Lesson on the above topic for October 29 is Joshua 24:14. Mark 10:21. Eph. 6:18. The Golden Text being Joshua 24:14. "As for me and my house, we will serve Jehovah.")

By DR. ALVIN E. BELL

Many of the problems of the modern home are created before the home is established. If folk too young, but old as well, would consider the importance of marriage and the establishment of a home, instead of rushing impulsively and inconsiderately into marriage and the establishment of a home, many of the problems of the modern home could either be avoided or provision be made for the solution of those that inevitably arise.

No one who knows his Bible will deny the sanctity it everywhere ascribes to marriage as God's own institution. It is the foundation of the home, and a woman consent to live together in love and faithfulness with

him separated by death. As such it is much more than a civil ordinance of the state and of society.

Christ's teaching is "From the beginning of the creation, male and female made them. For this cause shall a man leave his father and mother and shall cleave to his wife: and the two shall become one flesh; so that they are no more two but one flesh. What therefore God hath joined together, let not man put asunder."

This unity implies that those who seek it shall bring to it the best of their nature, and that they shall have it in all its fullness. What therefore God hath joined together, let not man put asunder.

It is this unity which those who seek it shall bring to it the best of their nature, and that they shall have it in all its fullness. What therefore God hath joined together, let not man put asunder.

It is this unity which those who seek it shall bring to it the best of their nature, and that they shall have it in all its fullness. What therefore God hath joined together, let not man put asunder.

It is this unity which those who seek it shall bring to it the best of their nature, and that they shall have it in all its fullness. What therefore God hath joined together, let not man put asunder.

YOUNG LOCAL MUSICIANS COMING HOME

Walter Holowach Returns Sunday From Vienna Study at Vienna

Following three years of violin study at the Vienna Conservatory of Music, Walter Holowach, 22, native-born Edmontonian, is returning on Sunday, his study at Vienna was under the supervision of the local branch of the Y.M.C.A. and the Rotary club.

Mr. Holowach started studying the violin at nine years of age, with Dr. Edgar Williams, with whom he studied for eight years. After continuing studies for two years under Frank Darmstadter, he went to Vienna.

Mr. Holowach attended McCauley Public and Victoria High schools, at both of which he played a leading part in student activities, being named additional in musical scholarship, for his ability at hockey and track events.

Mr. Holowach comes of a musical family, his sisters Gene and Mary playing the violin and piano, respectively, and a brother Ambrose, who is also a violinist.

Mr. Holowach is the youngest of the family, as his people all have been musical.

It is expected that Mr. Holowach will appear in a recital in the near future under the auspices of the "Y" and the Rotary club.

Police Court

Paul J. Posternak of Mundare, Alberta, was remanded on bail of \$2,000 to stand trial in Supreme court on a charge of theft by receiving, \$2,000.

George B. McLeod listened to Leo Eades, who admitted the evidence for the crown, Prosecutor Becker presiding at the Cockshutt Plow Company at Mundare, collected money from farmers for over a period of three years and allegedly failed to turn the money over to his employers.

William Moore was arraigned on a charge of committing an indecent act and the case set over for hearing until Thursday.

Gleaned From Today's News

I Saw Today

Andrew A. Hallett, general superintendent, Canadian Pacific Railway, Calgary, is a city visitor.

Hon. George Howland, minister of agriculture and health, has returned from a visit to the southern part of the province.

Chief Justice W. C. Simons of the Supreme Court of Alberta, left on Friday night for Calgary after sitting here for one week.

Dissolution of the legal partnership of Miller and Wynne, 620-630 St. George Street, was announced on Saturday. After W. Miller will continue practice in the office of the former partnership, while Mr. Wynne will carry on in other offices in the Tegner building.

Five Entered 'In Lion Man' Contest Here

With five entries already received by Manager Walter Wilson to Paragon's search for a "Lion Man to play an important part in the story of the Jungle," Edmonton may yet provide a male lion.

On Saturday manager Wilson received another wire from the Paragon studios here.

"If you can find someone who approximates six feet six inches tall, with 12 inch neck, 32 inch chest, 15 inch biceps, 32 inch waist, 23 inch thigh and 16 inch calf, we would like to picture him in the story of the Jungle."

Mr. Wilson said that he had received a letter from a man in the city who offered to play the part of the "Lion Man" for \$1,000 a week.

THE INQUIRING REPORTER

"Do you think city streets should be decorated for Christmas?" asked The Bulletin's inquiring reporter Saturday morning. The following are the answers to those asked, for and against the idea:

JACK TOMPKINS, student: "I don't think it should be decorated for Christmas. It is a waste of money and time. The city should be decorated for the New Year instead."

A. ARCHIBALD, merchant: "There should be no decorations on the city streets. It is a waste of money and time. The city should be decorated for the New Year instead."

KEN IRVINE, mechanic: "I make no difference either way to me. I am not interested. Anyway, my opinion is not liable to influence the powers that be in decorating or leaving bare the city streets. Things are all right as it is."

GEORGE DOLLA, waiter: "By all means yes. It would color the city and give the unemployed jobs for a couple of days. stimulate trade, clear up the streets, and give the city a good effect all around. It can be done at a small cost and the benefit will well warrant the expense."

HARRY L. GIBSON, Merchant: "Most certainly, yes. The psychological effect is marvelous. I know that from other years. It has a direct effect on trade by making a happy note in the hearts of all who walk Jasper. Decorations on the street will live with those in the home at Christmas. They both add lustre to the occasion."

MRS. GEORGE WADDELL, waitress: "While I don't think it is a matter of material difference either way, it certainly gives the city a happy note in the hearts of all who walk Jasper. Decorations on the street will live with those in the home at Christmas. They both add lustre to the occasion."

Wind Completes House Moving For Contractor

BRUCE, Oct. 28.—When Lorenzo Tomlin, local contractor, agreed to move a house from a farm to the Bruce townsite, he failed to consider the weather. Tomlin intended to move the house in sections over the four-mile stretch, against the wind.

Charles, a near-hurricane wind completed the house-moving job for the contractor. He is now busy gathering up the pieces and assembling the scattered fragments.

Slight Increase In Disease Cases
Cases of communicable diseases reported to the city health department this week totaled 40, an increase of 17 over the city average for last week, according to the weekly reports in sections over the week for the jobs and lends carnival color to the otherwise drab thoroughfare.

250 JOBLESS NOW WORKING ON HIGHWAY

Motor Association Manager Returns From Trip to Jasper Park

Arriving back in the city Friday from a trip to Jasper Park, J. A. McNeil, manager of the Edmonton branch of the Alberta Motor Association, reports that 250 unemployed men are working on the Jasper-Highway.

This number is being increased daily, and all other work in the park has been discontinued, relief labor at the present time being used only on the highway work.

So far, a stretch of 30 miles from Jasper to a point five miles beyond Athabasca Falls has been graded and put into excellent shape. Mr. McNeil states. Another 30 miles has been cleared and graded, and street work is being used to supply trucks. No automobile traffic other than the 30-mile stretch existing for four years on weekdays and all day Sunday. So the present line will be 60 miles of the highway in use, 50 miles of which are gravelled and 10 miles graded.

READY BY 1936
It is estimated that at the present rate of progress, the Jasper-Highway will be completed and open to traffic by 1936.

Mr. McNeil also reports that a road between St. Albert and Jasper. Mainlanders are being kept in operation and the road has been cleared of all boulders and widened leaving the stretch in excellent condition.

Large warning signals have been erected at each end of the stretch and are proving of great assistance to motorists. Work of repairing the stretch has been started, and men are working on the first snow.

The grade has been practically completed between a Lyon and Jasper. Road work store, and as soon as this section reaches the edge of gravel there will be a good highway between Edmonton and Jasper Park, Mr. McNeil states.

RELIEF OFFICE BARES SWINDLE

ST. JOHN'S, Nfld., Oct. 29.—Roland Starks, opposition member for St. John's, was released on bail of \$100.

His arrest followed an investigation conducted by Police Inspector Russell who charged him in his department that Starks had fraudulently signed debt receipts during a period of several months.

Arraigned in the magistrate's court, Starks was released on bail of \$100.

Alberta Has Reaped One Of Largest Crops In History This Year

Low Price Levels, However, Will Result in Disappointing Returns

With practically all wheat threshing completed, with the exception of an area between Red Deer and High River, where considerable delay has been experienced through rain and snow, Alberta is concluding another crop season in the knowledge that it has produced one of the largest crops in its history. So the wheat will be in excellent condition and a seasonally high level, according to officials of the department of agriculture.

Extremely low price levels will result in "disappointingly small" returns to the farmer.

An abundant supply of feed which has been produced with the wheat, will be in excellent condition in the irrigated sections of the south, there will be in excellent condition and a seasonally high level, according to officials of the department of agriculture.

1,500 EXPECTED ON RELIEF HERE

Registration of single unemployed men is continuing, and by next Wednesday it is expected that about 1,500 men will be registered for relief in the form of meal and money aid. Each man is expected to receive \$4.00 a week.

Three hundred single jobs were registered Friday and 1,000 were estimated another 400 would be added to the list Saturday and 1,500 at a possible total next Wednesday.

The Edmonton relief department, under the control of the city, is expected to be found in any city in Canada. Each man is expected to receive \$4.00 a week.

The situation is far as registration received Saturday from R. F. McKee, manager of the special relief department.

Automobile Convention Urges Completion Trans-Canada Highway, 1933

FOUR RELIEF CAMPS WILL BE OPENED

Government to Take Steps Immediately to Relieve Situation

Three camps at Elk Island Park and one at Waterton National Park will be opened up in the immediate future to take care of the single homeless unemployed according to an announcement made on Saturday by the federal government by Hon. George Mealy, minister of agriculture and lands.

Appointment of a commission to handle the relief was also announced, the personnel of which is as follows:

A. McKenzie, heretofore acting as chief provincial relief officer, as chairman; with C. E. S. Wood, former police magistrate, Calgary, and Robert Livingston, Lethbridge, as members.

The commission will administer relief dealing with the unemployed single homeless men.

Following conference with Dr. W. J. Black, ex-officio of the Dominion government in caring for the single men, the provincial government decided that this commission should administer the relief according to the policy outlined by the Minister of Labor, which includes individual co-operation and participation by the province.

Under direction of the commission, organization of relief camps will be proceeded with as rapidly as possible.

The Dominion will assume cost of maintaining the men in the camps while the province will take its camp equipment.

The provincial government has not yet received any information regarding any changed policy on the part of the Dominion for this relief for married men.

The province assumes that the relief for these men will continue on the same basis as heretofore.

Arrangements entered into by the province and cities are to continue at least until notice has been received from the Dominion that it will assume a larger share.

Pending completion of relief camps the Dominion government so far has agreed to pay only 50 per cent of the cost of maintaining the single unemployed men and it is the intention of the government to deal with the cities as the other 50 per cent will be distributed until the camps are set up.

TWO GIRLS ROUT WOULD-BE THUG

VANCOUVER, Oct. 29.—Miss K. Atkins and Miss J. Henderson, clerks in the London grocery here, routed two would-be bandits this afternoon with bare hands.

The men entered the store and one attempted to grab the cashier's register behind the counter. Miss Atkins grabbed him by the arm and the other by the leg.

Meanwhile the other bandit made for the till and was held by Miss Henderson who grabbed another cash register behind the counter.

Thereupon the cashier cried out and both bandits fled from the store. Ten minutes later the police arrested a Piquette Wiggly store and held up the grocery store.

World's Largest Liner, Launched Today, Foreshadows New Race For Sea Power

FRANCE'S NEW SUPER-LINER AS SHE WILL APPEAR WHEN SHE SAILS THE SEAS

BY MINOTT SAUNDERS

ST. NAZAIRE, France, Oct. 28.—The giant hull of the world's largest ship, blessed by a bottle of the choicest champagne, will be sent sliding into the sea here at one of the highest tides of the year on Oct. 29.

This liner is known in the drafting rooms and mechanical works by the simple unromantic designation of the T-4. But "Normandie," the name that probably will be given to the super-liner when it is launched, is easily the greatest vessel ever launched.

The T-4, which was laid down in January, 1917, will have a tonnage of 75,000, making it easily the greatest vessel ever launched.

The White Star liner Mauretania has 57,000 tons, and the Leviathan nearly 50,000 tons, and the Europa and Bremen of the North German Lloyd about 52,000.

The Canada Line stepped work some months ago on its vessel mystery ship which was designed for 75,000 tons, and whatever happens to the program of construction, it now seems certain that the T-4 will be in New-York service long before any rival of its size.

According to plans, the new French ship will start operation in the spring of 1934.

From the point of view of the Atlantic crossing in five days, regardless of the weather, it is no secret that officials here hope that their boat will take the speed honors from the Germans.

The T-4 will be 102 feet long over all and 118 feet across at the waterline. From keel to funnel top its height will be 176 feet. It will displace 75,000 tons.

The T-4 will have seven funnels and two masts, five of which will be full length. There will be ten elevators for passengers and wireless.

The ship will be propelled by four electric motors of 4,000 horsepower each, connected with four shafts and four screws. In addition, there will be a group of turbo-propellers which will provide power for elevators, cranes, lighting and ventilation.

The lines of the vessel are rather original, promising general tariff reductions.

Then, within two weeks of the launch, the ship will be in New-York service long before any rival of its size.

An indication of the how above the water line is designed to prevent the waves from washing over the decks. The top deck is rounded like a shell and this section ends with a spur which is calculated to stop any flow of water and get rid of it without damage.

The launching of this great bulk will be a delicate business. The ways will be greased with 45 tons of tallow, over a lot of soap and two and a half tons of lard, representing a cost of 100,000 francs, or \$6,000.

The men engaged will number 600. The hull will move down its ways at a retarded speed of not more than ten knots an hour. The critical moment will come when the stern first hits the water and a weight of something like 16,000,000 pounds will bear down on a narrow surface.

The entering eddies will plunge to a depth of 100 feet, and so far has been the calculation that it is estimated that there will be only a heavy from the bottom of about five feet.

This will be a dramatic moment, for nothing so comprehensive in the way of a launching has ever been attempted before.

EAR-MARKED GASOLINE TAX TO PAY BILL

Motorists Point to \$500,000,000 Furnished to Federal Gov't.

CALGARY, Oct. 28.—Completion of the trans-Canada highway by the end of 1932 and appointment of an independent highway commission for each province were urged at the annual convention of the western division, Canadian Automobile Association here last night.

Resolutions urging ear-marking of gasoline tax revenue and automobile license receipts for highway construction were also adopted by the convention, which will continue in session Saturday.

In dealing with highway construction, a resolution declared that the Federal government should give the provinces more assistance in this regard. It pointed out that since 1907 the Federal government had distributed \$500,000,000 in revenue from the motor vehicle tax, but had contributed only \$20,000,000 towards provincial highway construction.

The advantages of providing highway construction as part of the relief program to aid jobs was emphasized. The trans-Canada highway could be completed by the year 1932 if the British Columbia and Ontario governments would press to a finish their sections of the highway, it was declared.

The British Columbia government was asked to speed work on the Big Bend section and the Ontario government was asked to complete the 450 miles between Schreiber and North Bay.

An telegram from Hon. William F. Johnson, minister of highways for the Canadian government, was read. He said that the route from Schreiber to North Bay was still a matter of debate.

"This is the most startling shift in position by a presidential candidate in all recent political history," Mr. Hoover stated, as an indoor crowd of 25,000, and outdoor throng estimated up to 30,000 shouted approval.

HUNTERS READY FOR BIG GAME

Scarlet-clad hunters prepared to rally out to the big game over the weekend-end get ready for the opening of the big game season on Thursday next.

The season for deer, moose and caribou opens this day and lasts until December 1, with one male animal of each species allowed. No buck or bull with horns under four inches in length can be shot.

The light fall of snow is all in favor of the hunters, and just what the doctor ordered, say the big game and moose boys. The game is going to make tracking a lot easier.

And last but not least, trappers and bismuth men say that big game is plentiful.

HER MOANING KEPT HIM AWAKE

Arms and Legs Stiff with Rheumatism

HOW THEY BOTH TAKE KRUSCHEN

Something had to be done for this old couple. She could not sleep for the pain, and he could not sleep for the rheumatism. He told her how he felt.

"My wife, who is 67 years of age, has suffered for years with rheumatism in the joints. At times, the pain was so bad that she had to drop anything that she carried in her hands. In the night, I was often awakened by her moaning, on account of the pain in her arms and legs. She was so stiff she could not climb the stairs."

About 12 months ago, she started using Kruschen Salt, and after taking the first bottle, she could use her fingers much better. So she continued to take it, and now she is fit for everything that she does.

It is so for her that she is very seldom kept any pain. Now we both take Kruschen, and have resolved that we will be without it as long as we live.—J. J. P.

Kruschen Salt is obtainable at all Drug Stores at 4c. and 7c. per bottle.

What caused her rheumatic pains was the sharp-edged salt and crystals getting into her joints. The elimination of the salt in Kruschen prevented them from forming again. That is the way Kruschen works with rheumatism, and that is why rheumatism cannot exist in the system that gets the "little daily dose" of Kruschen.

Kruschen Salt is obtainable at all Drug Stores at 4c. and 7c. per bottle.

WOMAN HELD AS BRAINS OF TERROR GROUP

CHICAGO, Oct. 29.—A 40-year-old woman is held on charges of being the "brains" of a group of terrorists who, police said, were responsible for threats and a bombing in Chicago's school lunch-rooms.

William Schmeckler, vice chairman of Associated Students of Chicago, said he was the writer of three warning notes sent to school officials prior to the bombing of the University of Wisconsin. He says this is the first time in the history of the city that a woman has been charged with a conspiracy to commit a felony and was held for arraignment.

Called by detectives, William Schmeckler said he was convinced Mrs. Kallie was the writer of three warning notes sent to school officials prior to the bombing of the University of Wisconsin. He says this is the first time in the history of the city that a woman has been charged with a conspiracy to commit a felony and was held for arraignment.

WINTER SPORTS IN CALGARY

—Bill Lewis—

Polished Crop of Rookies Try Out in National League

YOUNG HOCKEY STARS TRYING FOR POSITIONS

On the cushioned turf of the new stadium in Calgary this afternoon, "Seeds" Brown's band of Young Liberals commenced their two-game try-out for the Canadian football championship of this province. They were hustled south last night and today they meet the Junior Altimans in the opener of the series that will crown the best of the province and decide the team to enter the Dominion playoffs. Headliners of the series will be played here this week.

Just how the game today will result is a matter of pure conjecture. There has been no interest in game play to date this season to give any indication whatever of their true quality. It is as the series begins to get underway that the true strength of the teams is ascertained. As the series begins to get underway that the true strength of the teams is ascertained.

The junior Altimans, who were the title last fall, are a hand-picked crew this year because of the fact that there is only one Junior club in the eastern city now as compared to four in 1931. This year's team is expected to be a powerful force.

The Liberal-Altimans played game was the one point topic of conversation about the city today. Those who saw the game battle on the ice rink were the Liberal-Altimans, who were the title last fall, are a hand-picked crew this year because of the fact that there is only one Junior club in the eastern city now as compared to four in 1931.

And those who did not see it, were only sorry that they had missed this fine football spectacle. The Liberal-Altimans played game was the one point topic of conversation about the city today.

Young Liberals were not in a strenuous battle, and I think they deserved their win on the run of the game. The two teams are so closely matched in ability that the outcome here will be a toss-up.

Another day and another game, and it might all have ended differently. But that's the way this football game goes.

Hockey's greatest defenseman and most colorful player, Eddie Shore, struck out for the Liberal-Altimans, who were the title last fall, are a hand-picked crew this year because of the fact that there is only one Junior club in the eastern city now as compared to four in 1931.

EDMONTON PATRIOT PRO LOOP BEGINS IN DECEMBER

Brushing Up Sports
The Edmonton Patriot Pro Loop begins in December. The loop will be a series of events that will be held in the city of Edmonton.

Les Patrick Has Charges Out Climbing
Les Patrick has charges out climbing. He is a professional climber and has been climbing for many years.

Useless Information
This is a section that provides useless information. It is a collection of facts and figures that are not useful.

 ADVENTURES
 BY ROY CRANE.

MARKERS
 WASH EASY
DIRECTIONS:

Cut out the above markers. Each player, in turn, draws from a deck of cards containing nothing above the size (or you can use a single die, or spinner) and moves his marker as far as indicated. When you land on an animal square put that animal in your corral. If your opponent has that animal, change it from his corral to yours.

THE game is over when either player lands on the spot marked finish and both players continue around the trail until one or the other does land there. Then count your points. Player with highest total wins.

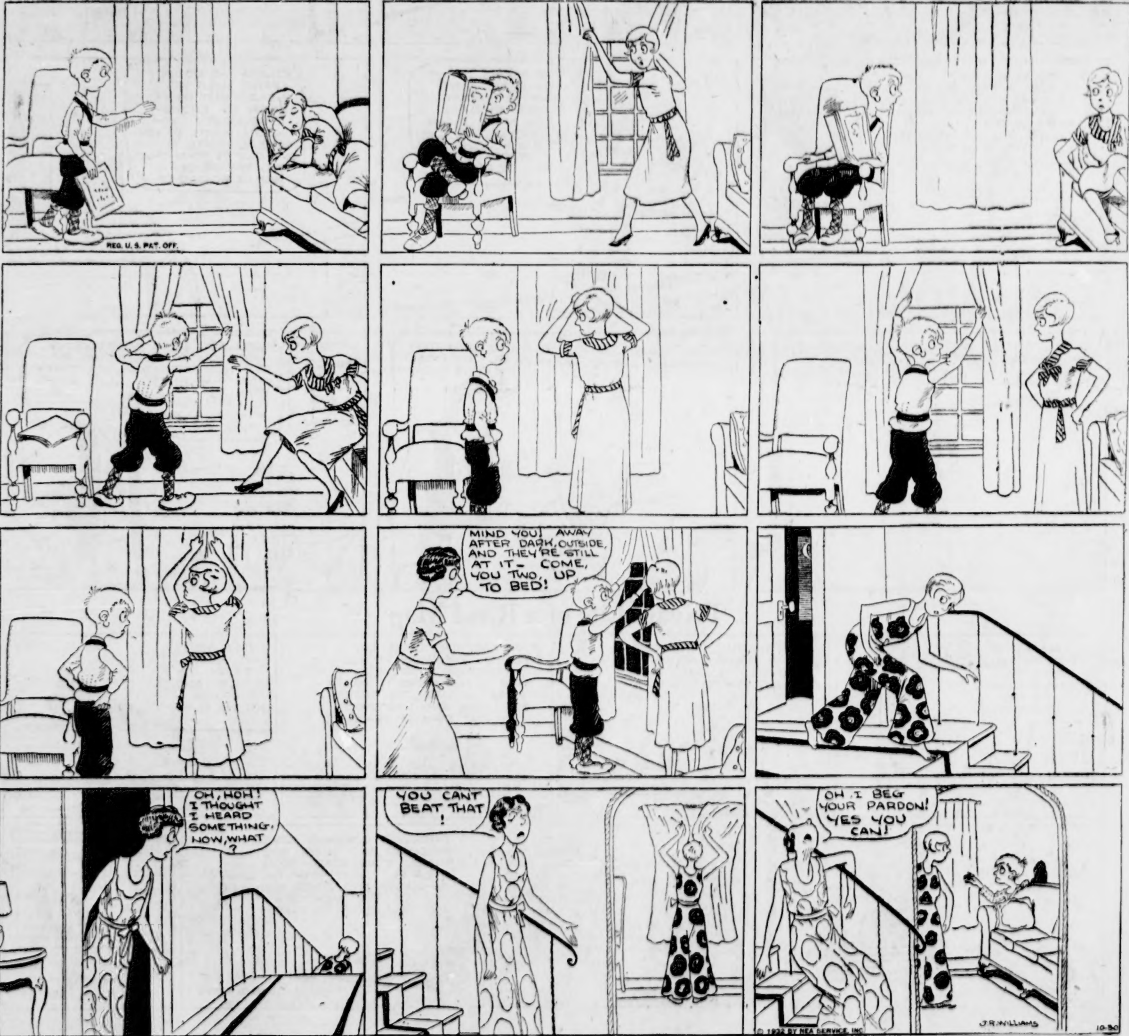

CUT OUT ANIMAL SQUARES BELOW, AND PLACE ON TRAIL.
